ABSTRACT

This bibliography includes 161 entries with particular emphasis on the community-junior college. Major sources of literature include bibliographies prepared by the ERIC Clearinghouse for Junior Colleges, and the Center for Development of Community College Education. Nineteen other sources were consulted, including "Dissertation Abstracts" (1938-1966), the "Education Index," the "Reader's Guide to Periodical Literature" (1955-1967), and "Research in Education." BIBLIOGRAPHIC SOURCES

The following sources were used in the development of the bibliography. While the sources generally relate to faculty participation in the governance of Higher Education, the specific emphasis is on the Junior or Community College.

The major sources of pertinent literature were provided by bibliographies prepared by the Education Research Information Center Clearinghouse for Junior College information at the University of California at Los Angeles and The Center for Development of Community College Education at the University of Washington.

"Faculty Participation in Community College Governance: An Annotated Bibliography," prepared at the University of Washington provided the most specific and comprehensive source material. This source selected governance articles from nineteen other bibliographies including "Dissertation Abstracts" 1938-1966, the "Education Index," and the "Readers Guide to Periodic Literature" between the years of 1955 and 1967. Thirty of the forty-six articles listed specifically applied to broad faculty participation in community college governance. Only four of these were written prior to 1960, two in 1957, and two in 1958. Three dissertations were listed, one

in 1963 and two in 1964. The large majority of the articles were published in the Junior College Journal during 1964 through 1967. Most of these articles on faculty participation in governance were written by administrators.

The Eric Clearinghouse for Junior Colleges at the University of California at Los Angeles has published two useful bibliographies: "Doctoral Dissertation in 1964-1966" and "The Junior and Community College Faculty" which provided seven sources in the 1962-1968 edition and thirty-seven sources in the 1969 revision. Other sources included:

1. Research in Education, Vol. 1, No. 1 (November, 1966) through Vol. 4, No. 6 (June, 1969).
2. Research in Education Current Index to Journals in Education, Vol. 1 (January, 1969) through Vol. 1, No. 6 (June, 1969).
3. Dissertation Abstracts, Vol. 25, No. 7 (January, 1965) through Vol. 29, No. 10 (April, 1969).
